Selection of Individual Consultant

Lead Consultant-Financial Services under Megha-Lamp Project

1. Background

The Integrated Basin Development and Livelihood Promotion (IBDLP) Programme, the flagship programme of the Government of Meghalaya was launched in 2012 in order to create a state-wide institutional ecosystem for ecologically sustainable and economically inclusive development in Meghalaya. Thus IBDLP is a strongly citizen-centric programme that emphasises entrepreneurship and intellectual development of the people of Meghalaya as the pathway to its vision for sustainable development. The Meghalaya Basin Development Authority (MBDA), a society registered under the Societies Registration Act is responsible for the overall implementation of the programme. All investments under the program will be channelized through the nodal agency Meghalaya Basin Management Agency (MBMA), a section 25 Company registered under the Companies Act, 1956.

The IBDLP is different from other Programmes/ Schemes of the Government as,

i. It seeks to arm individuals, be they farmers or entrepreneurs with entrepreneurial skills, awareness of basic accounting knowledge, market accessibility, etc. before linking them to banks.

ii. All intervention under IBDLP are in Mission Mode. The core of this strategy is the launching of independent missions for the specific sectors and organically merging them with the IBDLP.

iii. An integrated approach is being followed wherein all the necessary interventions are made along the identified value chains.

iv. Shift from a beneficiary oriented approach to an entrepreneurship promotion approach and seeking to establish sustainable and mutually beneficial partnerships.

v. Facilitation of market access opportunities for various commodities produced in the State will be ensured in a systemic manner so that the farmers/ weavers/ producers get the best price for their products.

vi. Promotion of multiple livelihoods for every household.

vii. It is a comprehensive approach to changing lives.

As the availability of financial services in terms of financial inclusion and access to bank credit is a vital component in achieving the overall success of the various initiatives under the IBDLP and Megha-LAMP (Meghalaya Livelihood and Access to Markets Project), active participation of banks/ financial institutions as partners in this regard is crucial. Briefly, the Megha-LAMP project became effective in December, 2014 with completion scheduled for December, 2022. The project objective is to improve family incomes and the quality of life in rural Meghalaya. These developments have created an environment for increase in the demand for bank credit in particular and other financial services in general. Financial services, and credit in particular, is a necessary ingredient to successfully implement livelihood activities.

Financial Services Division, MBMA
Towards creating an enabling environment for participation of Banks/ financial institutions and ensuring access to bank credit/ financial services by the interested citizens, the Financial Services Division under MBMA is the nodal Division for driving the initiative to link the partners/ entrepreneurs to banks/ financial institutions. In this regard, FSD seeks to engage Consultants to facilitate the process of ensuring access to credit particularly for partners/entrepreneurs registered with Enterprise Facilitation Centres located in all the 39 Block HQs in the State and also ensure proper utilisation of bank loans received by them.
