Ref No: PLN/MBMA/11927/2025/NF

Dated: 24th July, 2025

CLARIFICATION

“Supply, Installation, Training and Commissioning of Biochar Production Units under Meghalaya State Bamboo Mission, MBMA, Meghalaya for Biochar application as soil amendment in the agriculture fields and also reaping Carbon Credit benefits for the Communities”

1. **Date of Issue of RFB Document:** 22nd July, 2025
2. **Clarification on the Pre-Bid Queries:**

Sl. No	Queries from Bidders	MBMA Responses
1	What is expectation of your End Product?	Biochar produced from the Bamboo as feed stock for application in the agricultural fields as soil amendment
2	Source to Produce Heat such as Electricity / Coal / Wooden Scrap / Flammable Oil.	No
3	The tentative budget?	No Comment
4	Does this project contain any civil work, means who will make the building infrastructure?	Will be provided
5	Status for availability of 3 Phase Electricity & Water?	
6	Does this project include manpower after handing over to assist your operator?	Training & Handholding for at least 2 months will have to be provided by the supplier
7	The expected delivery must be minimum 4 months, because practically in 60 days it is not possible.	Extension of one month may be considered
8	Requesting to amend on payment terms, and made on 3 installment like 1. On delivery of material at site, 2. On start of Installation and 3. After demonstration and handing over the Project	No Comment

9	The document specifies a capacity of 1 ton of biomass per day. However, to meet carbon credit generation goals and ensure cost-efficiency, we would like to know whether the agency would consider units with a processing capacity of 1 ton per hour instead of 1 ton per day. This higher throughput design: Reduces per-unit capital cost in the long run, Allows aggregation of community biomass more efficiently, and enables faster scaling of carbon credit benefits for the communities, aligning with the objectives of this project.	No Comment
10	Given the short delivery and commissioning window of 60 days, we believe that higher-capacity units will also support more practical training, deployment, and monitoring.	Extension of commissioning window may be considered at the time of execution of the project to successful bidder
11	Whether such a capacity upgrade would be permissible under the current RFB, or if an amendment could be considered.	No
