Instructions for completing the self-certification form

The World Bank listing of ineligible firms and individuals is a searchable database that returns a positive or negative search results page upon submission of a name to be searched, in order to document the eligibility.

The supplier should print out, date, and attach the results page(s) to the self-certification form, which should read, "no matching records found".

If (a) record(s) has/have been found – i.e. the results page(s) shows one or more individuals or entities, including the supplier itself are ineligible for contracts of the World Bank on the grounds of "cross-debarment", the supplier should provide a detailed account of these sanctions and their duration as applicable or notify the procuring entity and in case the supplier believes the finding is a "false positive".

The procuring entity will determine whether to proceed with the contract or allow the supplier to make a substitution. This determination will be made on a case by case basis and will require approval by IFAD regardless of the estimated value of the proposed contract.

All of these documents must be retained by the supplier as part of the overall record of the contract with the procuring entity for the duration of the contract and for a minimum period of three years following the completion of the contract.
