Background

The Meghalaya Basin Management Agency (MBMA), which is a non-profit company, incorporated under the Planning Department, Government of Meghalaya is selected as implementing agency for implementing *the Cluster Development Programme – Turmeric cluster in West Jaintia Hills, Meghalaya*. MBMA will implement **Integrated Verticals i.e.**

- (i) **Pre-production & Production,**
- (ii) **Post Harvest Management and Value addition and**
- (iii) **Logistics, Marketing and branding** with Turmeric as focus crop

Lakadong Turmeric which is known as one of the finest turmeric varieties in the world with a curcumin content of more than 7% (almost 2% higher than other varieties), has been grown in the district for many generations. It is very much sought after for use in the cosmetic, pharmaceutical and food industry. However despite this good demand, farmers have not, till date, been able to realize the full economic potential of this crop primarily because of the small volume of production, preponderance of small and marginal farmers, absence of focused research, low individual volumes exacerbated by lack of organized aggregation, weak post-harvest management and market facilities, lack of universal access to information, skills and technology, unreliable price discovery, dominance of middle men, trader cartelization, access to finance and most importantly, insufficient quality planting material in Lakadong Turmeric. Farming families of the Jaintia Hills have been preserving and multiplying Lakadong mother plants for many generations but of late the decline and non-availability of quality mother rhizomes is a growing cause for concern.

1. Meghalaya Basin Management Agency invites you to submit your price quotation in a proforma invoice format for the supply of the Goods listed in **Annex 1** of this RFQ.
